Standard Gauge G Scale (Gauge 3)

GRS are very pleased to announce our plan to produce a limited edition of 50, Gas fired live steam, GWR **Castle Class** locomotive. These popular prototypes were built from 1923 through to 1950, and within that period there were many detail variations between class members. We are proposing to model the 5013-5098 variation with 4000 gallon so that all liveries from the late 1920's through to the BR period can be produced. The target retail price is **£6500.00**, with delivery in 2 years time, orders can be placed immediately with a deposit of **£1500.00** (which will be securely stored in a separate fund).

Ideal for a Castle to haul! - Gauge 3 R-T-R Collett Coaches

Laser cut aluminium sides with steel bogies and extruded aluminium roofs, giving lightweight but robust construction. Three types are being produced in either GWR Chocolate & Cream, or BR 'Blood & Custard'. All are priced at **£1299.00**, with a discount of **£50** per coach for orders of four coaches or more. A deposit of **£650.00** per coach is payable with your order.

G3782 Third Class Corridor DIAG C77 1938, 1940. 60' 11 1/4"

G3780 Brk. Compo. Corr. DIAG E159 1938, 1941. 60' 11 1/4"

G3781 Corridor Composite DIAG E158 1938, 1940. 59' 10".

Ready to Run Locomotives

We have some of our range of kits that have been professionally built for sale as R-T-R models. Other items from our range of kits can be made to order, but please allow for the time between commission and delivery. All enquiries are welcomed.

SG1400

Sleeper Bases

£1.75 each or
£42.00 for a 5 Yd
pack with joiners

SG1404 Buffer
£18.00

Y Points IG1408 8ft Radius **£135.00** IG1410
10ft Radius **£180.00** IG1412 12ft Radius **£210.00**

Custom Pointwork in G Scale/Gauge 3

If you have a problem and are unable to solve it with standard track talk to us and see if we can help. For many years GRS has produced specialised items for G3 and dual gauge 63.5/45mm using LGB rail and hardwood sleepers. This service has proved invaluable to many of our customers and if it is geometrically possible we can make it for you.
