See the website for more details.

Also one of our very good customers has asked us to help him move on a huge collection of mostly Hornby and Bachmann boxed OO gauge. These have never been used and there are quite a few rarities amongst them. We'll be listing it all in due course, but here are a few pictures to wet your appetites!

Our long awaited 16ton Mineral Wagon kit is available now. A new style of kit for GRS, it features a one piece resin moulded body which includes the solebars. This is complemented by laser cut steel underframe and brake gear parts which together with brass cast sprung axleboxes make for a very solid but easy to build wagon. A small batch will be available initially as the current climate is making it difficult to obtain sufficient supplies of parts, but hopefully this situation will improve soon.

The price for the kit, which includes wheels and couplings is **£219.00**
