# GRS Concrete products

20/21 stock in now!  
Complete range  
available

A brand new book on our favourite subject!

A comprehensive guide to the practicalities and technologies involved in a modern garden railway. Roger has produced an easy to understand guide to just about every aspect of the hobby.

A great read at only **£19.99**

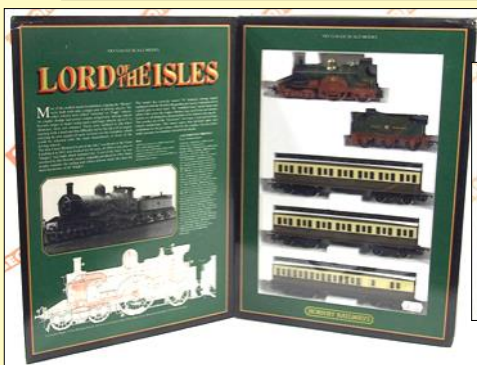

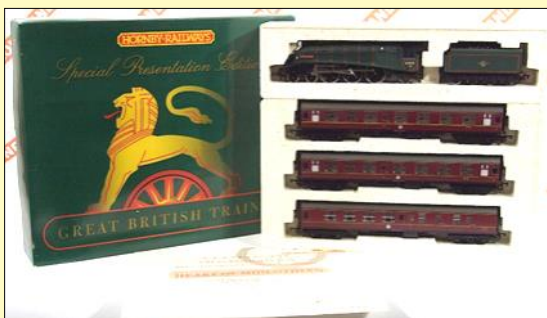

It is now confirmed that Bachmann will be adding 'Diesel' to their range of G scale Thomas characters. Availability is expected at the end of the year, but no pricing or detailed specification is known yet. Place your order now there's bound to be a queue!

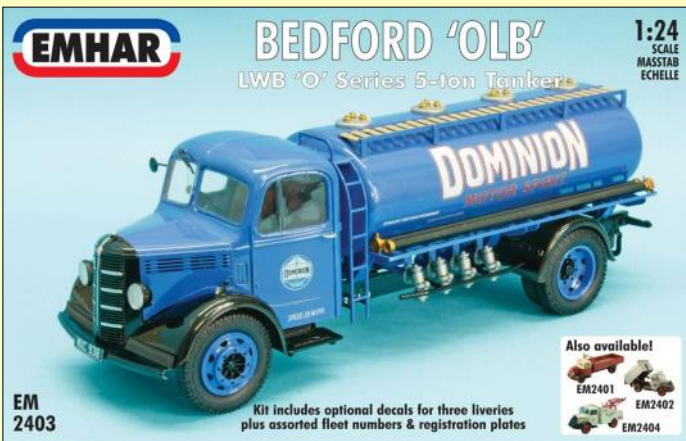

Don't forget that we often have collections of Second Hand in smaller than our usual scales, for instance we currently have almost 80 items in 'O' gauge, ranging from fine to coarse scale and including Locos, Coaches, freight stock, track and scenic items.

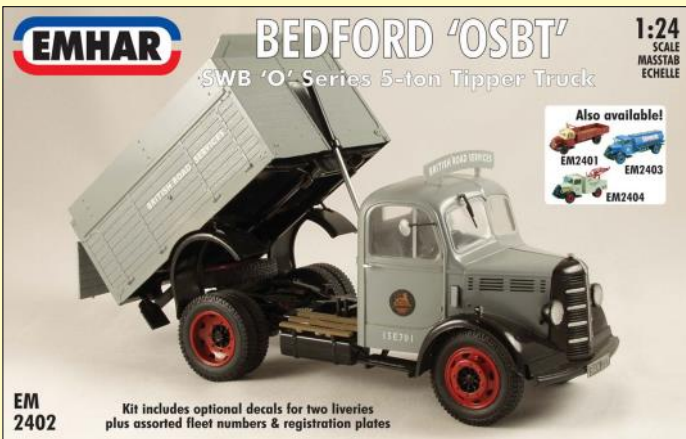

See the website for more details.

Also one of our very good customers has asked us to help him move on a huge collection of mostly Hornby and Bachmann boxed OO gauge. These have never been used and there are quite a few rarities amongst them. We'll be listing it all in due course, but here are a few pictures to wet your appetites!

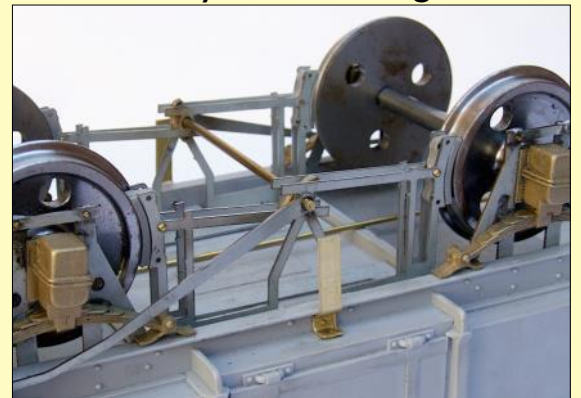

**Bedford 'O' Series lorry kits, superb kits in 1:24 scale that build into realistic models of the fifties classic British truck, all in stock now and all at £49.95**

## Gauge 3 - New Item

Our long awaited 16ton Mineral Wagon kit is available now. A new style of kit for GRS, it features a one piece resin moulded body which includes the solebars. This is complemented by laser cut steel underframe and brake gear parts which together with brass cast sprung axle boxes make for a very solid but easy to build wagon.

The price for the kit, which includes wheels and couplings is **£229.00**

*Please note that as a result of customer feedback, a couple of improvements have been made to the latest version of this easy to build kit, this has meant that the price has had to be increased slightly. The good news is the kit is now available in increased numbers and should remain so!*
