

Guide to Custom Lining Services

September 2022 (updated)

Guide to Custom Lining

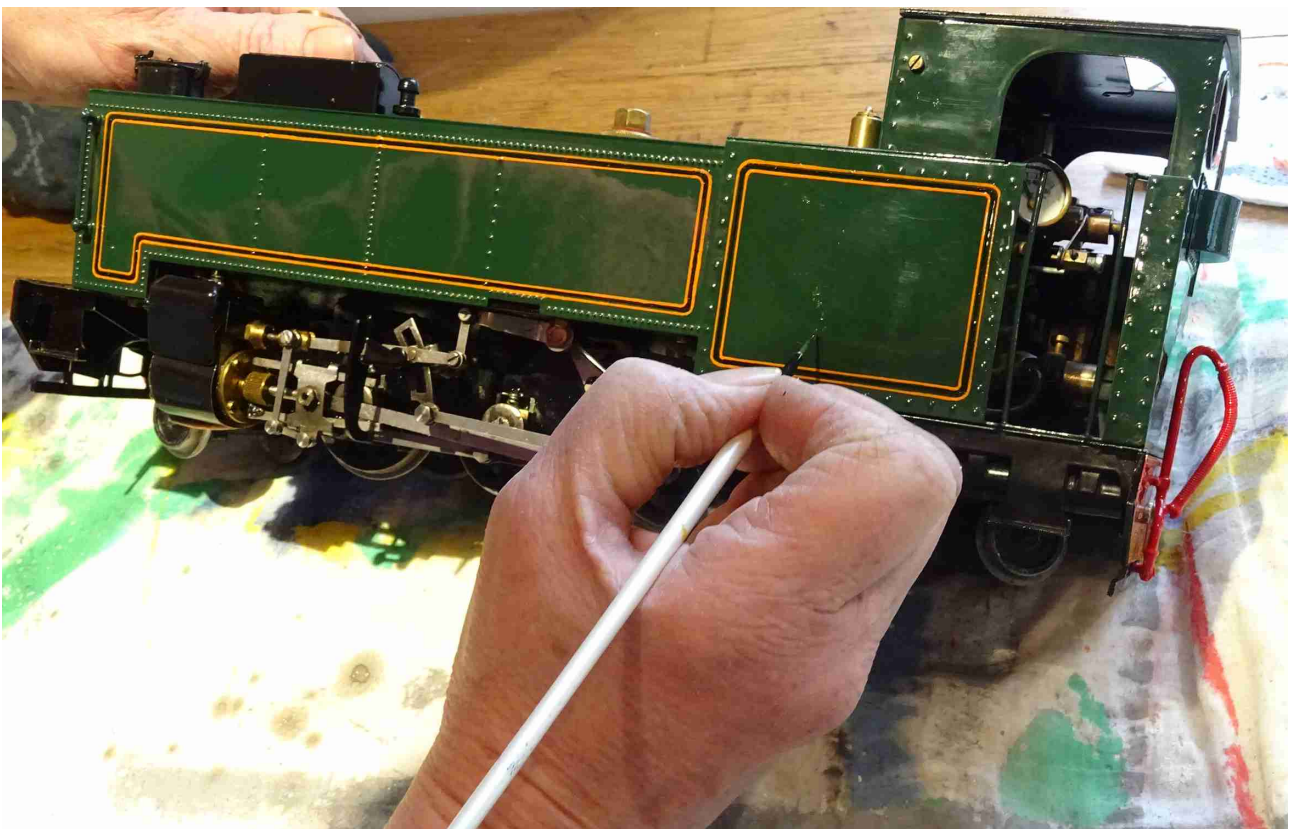

Our in-house painter Myrica Jones provides customers with a high-quality bespoke lining service.

Customers can pick their own livery lining to give their models that personal touch. This includes specifying colours, line thicknesses and levels of detail.

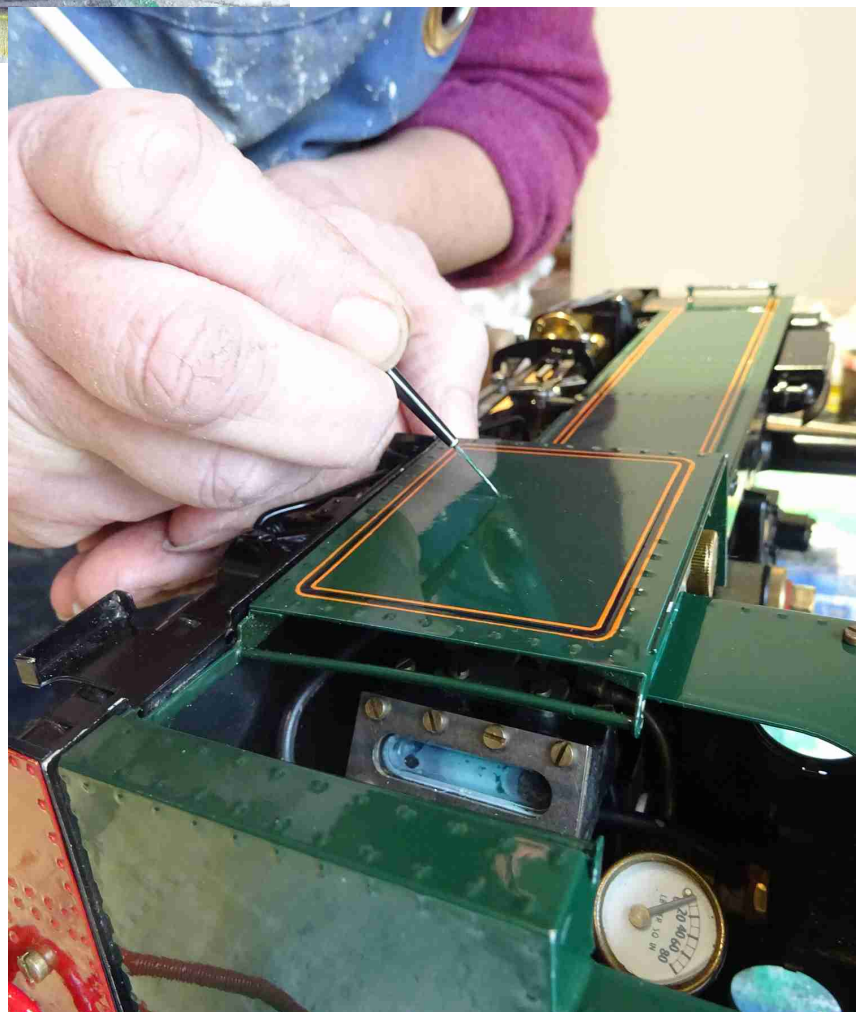

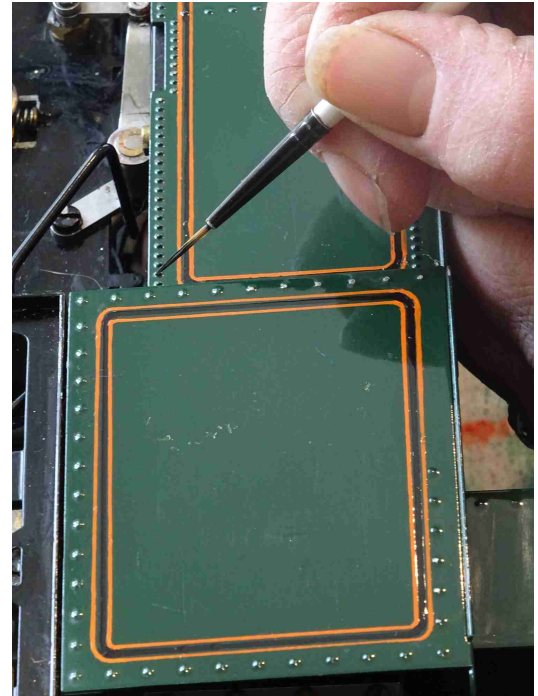

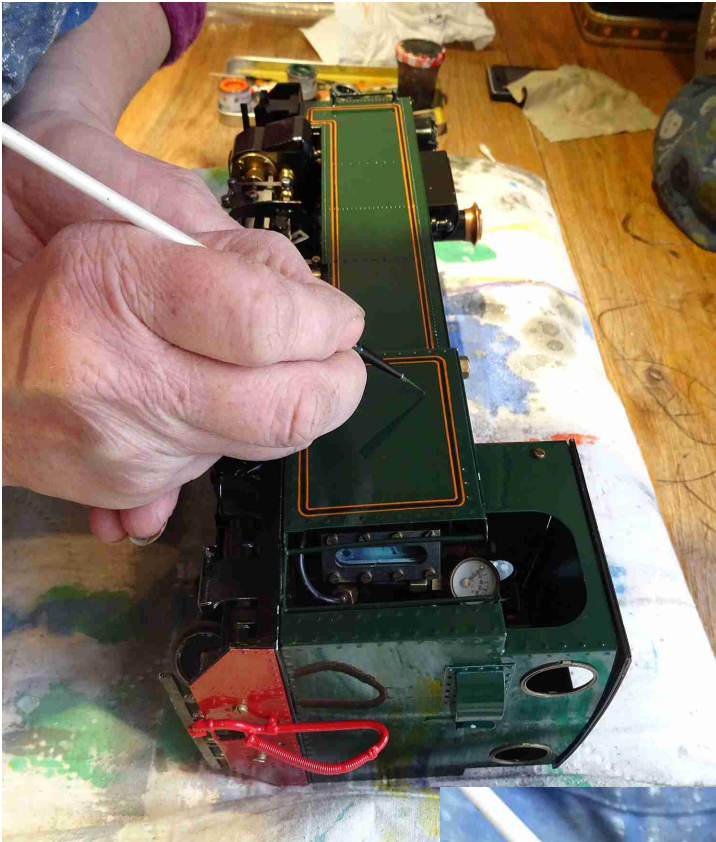

Myrica has experience across a wide range of locos, passenger coaches and rolling stock, providing our clients with a custom finish that sets their models apart from the crowd.

We can offer a fast turnaround for services - usually less than 4 weeks - including:

- Lining in various styles**
- Transfer lettering**
- Name plate backgrounds**
- Boiler bands**
- Cylinder covers**
