New GRS Hudswell Clarke

GRS is excited to announce that we have a brand new 1:19 scale Hudswell Clark pannier tank currently in the works with Bowande. It is based off of No. 868 which served as a shunter which was built in Leeds for the Bengal Iron & Steel Company in India.

The engine features all of the mod-cons including finely modelled, fully functional Walschaerts valve gear, wheel suspension, Goodall valve and the ability to switch between 32mm and 45mm gauge. Illustrated here is the range of fully lined liveries and will hopefully be released to the public towards the end of the year.
